The Santa Monica Police Officers' Association endorses Measure ES - supporting our local schools.

Santa Monica maintains excellent public schools and we are committed to keeping them great. Exceptional public schools benefit the entire community—enhancing our quality of life, supporting property values, and preparing our kids for success. Santa Monica's schools have long had deep community connections and rank among the nation's best.

Measure ES replaces uncertain City funding with a permanent and stable local funding source that will protect Santa Monica's schools for future generations. Further, Measure ES will prevent the loss of permanent teachers' position, protect programs for underprivileged students, and maintain the community schools as we know them. These funds cannot be used for administrator salaries, facility repairs, or building improvements. Most importantly, ES funds will be overseen by a citizens' oversight committee to ensure that all funds are spent exactly as promised.

Respectfully,

Santa Monica Police Officers' Association Board
